VIRTUAL EVENT

Cyber Security

We'll be going in depth on the current state of cyber security, and why it's essential to every business. What should we know about advanced AI and how it could impact our business practices?

B2B/B2G Matchmaking

Sign up during the event registration to talk to buyers from various sectors about your business. This is an opportunity to network with buyers from sectors such as Construction and Energy. There will be limited slots available.

Certification

What are the benefits and advantages of obtaining business certifications in the public and private sectors? What are the opportunities in government contracts?

Procurement

We'll go through the process of procurement in the private and public sectors. Gain insights into pricing, quality control and supply chain management.
